gecko iPod to stereo mini-jack cable

professional stereo 3.5 mini-jack to 3.5 mini-jack cable

High quality 1.8 metre iPod to stereo mini-jack cable, connects your iPod, IPhone or MP3 player to car stereos, speaker systems or any stereo mini-jack connector. Gold plated connectors and shielded wiring ensure trouble-free, pristine audio. Protective outer mesh gives you kink-free cabling, robust grip, extra durability and guarding against wear and tear.

Features:

24K gold plated connectors

Gold plated connectors provide the perfect contact point for your high-end audio system. Split connector ends tighten and grip as they are pushed on, creating a larger contact area, allowing audio signals to flow freely giving you a better sound.

Precision-molded

Custom-designed Easy-Grip molding makes it easy to grasp and install cables. Colour identifiers allow for easy tagging when installing into a stereo reciever. Internal cable-joints are incased in ABS plastic to protect the joints from parting or cracking.

Quality and protection

Large diameter 24AWG wiring facilitates a clean, crisp audio signal. Internal sheilding protects audio signals from unwanted noise and RF interference.

Retail pack dimensions:
20cm x 13cm x 2.5cm (HxLxW) - Weight: .15kg
